Standard Operating Procedure (SOP)

Limitation of 2-Compartment Sink Use

Establishment currently uses a mechanical dish machine that washes, rinses, and sanitizes via hot water or

Policy:

A 2-compartment sink may not be used for warewashing operations where cleaning and sanitizing solutions are used for a continuous or intermittent flow of kitchenware or tableware in an ongoing warewashing procedure (4-301.12 (E)).

Procedures:

Regulatory Authority (Print/Sign)

chemical sanitization. If mechanical warewashing equipment is unable to perform these actions, then the establishment shall either:

Switch over to single-use items, or

Close establishment until the mechanical warewashing equipment is properly washing, rinsing, and sanitizing

Statement of Agreement:

As per the policy and procedures of this SOP, I as the person in charge of the establishment, agree to follow the terms of this SOP.
